

## ***Instructions for sending clinical cases***

The Clinical case should include

- rational
- technical resolutions
- clinical implications
- perspectives

A brief introduction and discussion inputs must also be included in the clinical case

On the submission portal, you will be asked to provide:

- a **PowerPoint/PDF** file (max 25MB)
- and a **WORD** file prepared on the template available in the submission portal

### **POWER POINT/PDF PREPARATION:**

1. The slides should be prepared in PowerPoint (windows) or PDF and images must be embedded. Videos are **NOT** allowed;
2. The file must not exceed **25MB**;
3. The presentation can be written in Italian or English;
4. Abbreviations, if used in the text, the first time they appear should be written in the extended version

### **WORD PREPARATION**

1. The Clinical Case must be structured in 4 paragraphs (rational, technical resolutions, clinical implications, perspectives) using the template available in the submission portal (the template should be downloaded, completed and saved in word format).
2. The presentation **should only summarize** the clinical case uploaded in PowerPoint or PDF.

**Please note that the title and authors should not appear in the text.**

3. The text can be written in Italian or English.
4. Abbreviations, if used in the text, the first time they appear should be written in the extended version
